

**PERFORMANCE TRAILERS  
EXCLUSIVE**  
Patent pending

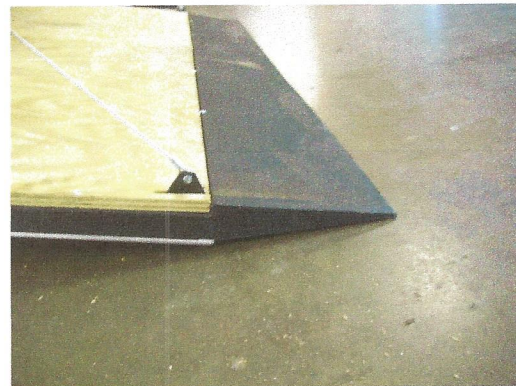

**Our heavy duty ramp option is a ramp rated at 4500 lbs. More box tube in the framing. The door seals weather tight inside the door frame. The individual cam bars are long, so they seal the full height of the door.**

**The frame is rust proofed. The hinges are heavy duty and greasable.**

**The ramp edge is tapered in steel to the ground. No flap to rip off.**

**The area where the floor meets the ramp is relieved in steel to avoid scuffing as you roll over the edge. No wood edge to splinter.**
